

#### DESCRIPTION

AEGIS Insurance Services Inc. has an immediate opening for a Senior Property Engineer for our Loss Control division. The Senior Property Engineer will develop and implement the company's property loss control programs in order to support the Underwriting division and propose methods to mitigate the frequency and severity of incurred losses to the Member and AEGIS.

#### MAJOR ACCOUNTABILITIES

- Perform, coordinate and implement engineering services, including on-site assessments, for utility Member companies.
- Evaluate the Member's operations and make risk reduction suggestions on loss control programs to assist Members to mitigate the frequency and severity of incurred losses.
- Participate in the development of the AEGIS loss control products and services that can benefit the Membership's loss control efforts.
- Assist the Underwriting division in marketing AEGIS' property insurance product.
- Participate in industry associations to stay abreast of technical changes and developments.
- Assist/participate in claims investigations, as requested.

#### REQUIREMENTS

- Bachelor of Science degree in engineering (preferably in electrical or mechanical engineering, or in fire protection engineering or technology), science or loss control discipline, or the equivalent work experience (8 or more years in risk management and/or loss control discipline). A professional certification in fire protection engineering or related power industry field is desired.
- In-depth knowledge of property all risk perils, i.e., fire, explosion, natural hazards, etc. and loss control principles, policies, and practices evidenced by 8 or more years of progressively more responsible experience associated with the energy industry.
- Knowledge of the National Fire Protection Association codes and standards, and related industry best practices pertaining to the energy industry.
- Knowledge of model building and fire codes and various occupancies which can be found in the energy industry.
- Demonstrated analytical and problem solving skills.
- Excellent communications and interpersonal skills.
- Excellent presentation and consultation skills.
- Ability to work independently and with others to deliver high quality deliverables on time.
- Proficient in the use of IT products such Word, Excel and others.
- Travel required (approximately 50-60%).

#### LOCATION

- Our preference is for the professional to be located in the Western U.S.

AEGIS is a leading mutual insurance company that provides liability and property coverage, as well as related risk management services, to the energy industry. Our policyholders represent virtually the entire energy infrastructure in North America, including electric and natural gas utilities, related energy companies, oil & gas exploration and production companies, water utilities, and transmission & distribution companies.

Our energy expertise, combined with a collaborative and fair approach to claims management and specialized loss control services, has set AEGIS apart from commercial insurance companies since the company was founded by its policyholder-members in 1975. AEGIS has continued to provide stable capacity and collaborative claims paying for more than 40 years – despite events such as the Superfund in the 1980s, the meltdown of Enron, the 9/11 terrorist attacks, Hurricane Katrina and Superstorm Sandy.

AEGIS tailors more than a dozen types of liability and property coverage to match the individual needs of our policyholders and we offer primary coverages through an alliance with Everest National as well as side-A directors and officers liability coverage through an alliance with Endurance Risk Solutions-U.S.

Our main office is in East Rutherford, New Jersey where we employ a professional staff of more than 200. AEGIS is the parent company of AEGIS London which operates Syndicate 1225 at Lloyd's of London. The syndicate offers specialist knowledge, expertise and leadership for energy companies as well as a wide range of non-energy classes traditionally written in the Lloyd's market. AEGIS also has licensed operations throughout Canada.

The company's premium revenues are \$1.2 billion and total assets are more than \$5.0 billion. Additional details of our financial performance can be found in our recent annual reports.

AEGIS enjoys an A.M. Best rating of A (Excellent) with a stable outlook.
