Job Overview

Summary

Civilian employees serve a vital role in supporting the Army mission.

They provide the skills that are not readily available in the military, but crucial to support military

operations. The Army integrates the talents and skills of its military and civilian members to form a Total Army.

About the Position:

This position is part of the Army Civilian Training, Education, and Development System (ACTEDS) and is a CIVILIAN position with the Department of Army. The incumbent will serve as a General Engineer trainee with the United States Army Corps of Engineers (USACE).

Position(s) will be filled under the Department of the Army Recent Graduates Program.

Federal employees in Hawaii are currently entitled to receive a 11.32% Cost of Living Allowance (COLA) in addition to the base salary.

Click [here](#) for more information on Pathways program participants. The Department of the Army Recent Graduates Program affords developmental experiences in the

Department of Army intended to promote possible careers in the civil service to individuals who have recently graduated from qualifying educational institutions or programs. Successful applicants are placed in a dynamic, developmental program with the potential to lead to a civil service career in the Federal Government.

After Program completion, Department of the Army Recent Graduates MAY be converted to a permanent position.

To be eligible for conversion to a permanent or term position, Recent Graduates must:

Successfully complete at least 1 year of continuous service in addition to all requirements of the Program.

Demonstrate successful job performance.

Meet the Office of Personnel Management's qualifications for the position to which the Recent Graduate will be converted.

Department of the Army Recent Graduates Program Eligibles

Positions are open to:

Recent graduates who have completed, within the previous two years (or will complete no later than June 2017) a qualifying associates, bachelors, masters, professional, doctorate, vocational or technical degree or certificate from a qualifying educational institution.

Preference eligible veterans unable to apply within two years of receiving their degree, due to military service obligation, have as much as six years after degree completion to apply.

The President has ordered a government-wide hiring freeze subject to certain limited exceptions. This position is subject to the hiring freeze. Although we are moving forward with the consideration of candidates, we will not make a selection for this vacancy announcement unless and until the position is no longer subject to the hiring freeze.

Duties

As a Fire

Protection Engineer (INTERN) you will be responsible for, but not limited to, the following:

Assist in the design and development of fire protection/prevention engineered devices, equipment or systems using established criteria or specifications.

Assist in the inspection and evaluation of fire protection/prevention engineered devices, equipment or systems using established criteria.

Identify fire protection/prevention engineering problems and recommend corrective action.

Review technical fire protection/prevention engineering project design documents, computations, and submittals.

Prepare technical fire protection/prevention engineering reports and studies with completeness, technical adequacy, and adherence to prescribed format of reports.

Incumbent works under closer supervision and works in a developmental capacity performing assignments and completing training, both of which are aimed in preparing the incumbent to gain the knowledge and skills necessary to perform the duties outlined in the aforementioned job description. The

incumbent receives progressively more responsible assignments as experience and training are received to the next higher level position.

Travel Required

Occasional Travel

Up to 10% business travel required.

Relocation Authorized

Yes

Payment of moving expenses is authorized subject to the provisions of the Joint Travel Regulations.
