Internships with Disney Land

Candidates are encouraged to review and apply for Disney internships online at the following links. The links are currently live, but they do have an “expiration date” when the posting will close.

Architecture & Facilities Engineering Internship: Fall 2016 (331993BR)
https://xjobs.brassring.com/TGnewUI/Search/home/HomeWithPreLoad?PageType=JobDetails&noback=0&partnerid=25348&siteid=5039&jobid=333804

Responsibilities:

Architecture: Assist project Architects in all phases of project work, from drafting, on-site as-built documentation, design coordination with outside design consultants, field data collection, light design/production work, construction administration, and project close-out documentation for a variety of projects ranging in scope from minor rehabs to building new facilities.

Engineering Assist project Engineers – Civil, Structural, Mechanical, Plumbing, Fire Protection, and Electrical, in all phases of project work, from drafting, on-site as-built documentation, design coordination with outside design consultants, field data collection, light design/production work, construction administration, commissioning, and close-out documentation for a variety of projects ranging in scope from minor rehabs to building new facilities.

Job Requirements
The candidate must have a good positive attitude, be self-motivated, respectful, accurate, detail-oriented, organized, and trustworthy. Candidate must be mathematically and technically inclined to learn industry specific software and codes. Candidate must be able to work in a team environment and also be able to work independently when required.

Preferred Requirements
Experience in the industry designing sprinkling systems. Proficient with CAD or fire sprinkler system design software.

Send resume and cover letter to Joshua Potteiger, joshua@trianglefireprotection.com.
